*Plus Profit Building Merchandisers*

The Billings Life-Time line is quality made and competitively priced for quick, profitable turnover in the hardware trade . . . forged from special analysis alloy steel, scientifically heat treated to Billings specifications. Life-Time wrenches, sockets and socket parts are designed, manufactured, quality controlled and stamped with the name "Billings"—the standard of quality since 1869—to give the hardware trade a popular line to carry and a profitable line to sell.

● **HEADS**

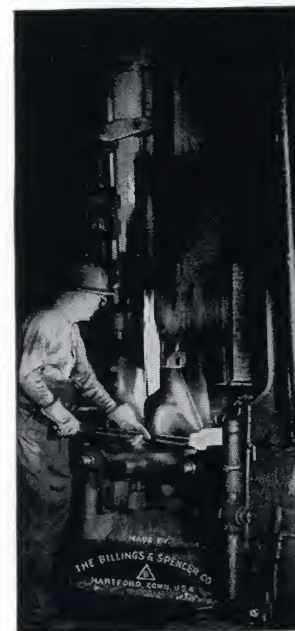

BILLINGS' LIFE-TIME WRENCHES are drop forged from special analysis alloy steel. Heads are ground and polished.

● **FINISH**

Extremely fine finish is obtained by applying a copper base coat. Then, nickel silver over the copper; finally, heavy chrome plate.

● **ALLOY STEEL**

Unretouched cross section of BILLINGS' LIFE-TIME FORGED WRENCH shows how the steel fibres (or grain) are arranged by drop forging to give extra strength.

## **An unbeatable team!**

Did you know that Billings Life-Time wrenches are produced from dies made by Billings from special analysis steel made to Billings specifications and forged on board drop hammers manufactured in Billings own plant?

Did you know that Billings has been producing drop forgings since 1869?

Quotations on all types of commercial forgings are gladly given by Billings Forging Department.

THE BILLINGS & SPENCER CO., HARTFORD 1, CONN., U.S.A.

*Balanced*

**WRENCH DEPARTMENTS**

Make a complete wrench service for farm trade, home owners, hobbyists, garage and industrial mechanics. The popular Billings' LIFE-TIME wrenches are securely held on the 1 x 2 ft. Billings distinctive royal blue colored plywood boards by strong hooks securely bolted from the back of the boards. Each wrench can be easily removed for inspection by the customer. . .

Various arrangements of wrench and socket boards can be made to fit most any type of store situation. Each wrench, socket and part is identified as to number and opening, plus a space for marking the retail price.

**BILLINGS**  
ALLOY STEEL

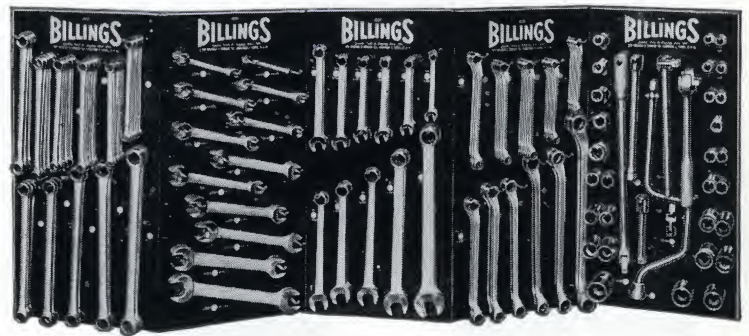

*Life-Time*

**WRENCHES & SOCKETS**

**LWD-169 FOR LIMITED TRADE**

Three boards of forged wrenches and sockets for a small wrench department. From these boards a larger, more complete department can be made. Consists of Nos. LE-52 (Open End-Engineers'), LS-75 (1/2" Socket), LB-42 (15° Box) Display Boards.

**LWD-246 FOR AVERAGE TRADE**

To service farm trade, householders, hobbyists, garage and industrial mechanics. Can be displayed in various arrangements to fit particular store conditions. Consists of LE-52 (Open End-Engineers'), LB-40 (45° Box), LB-42 (15° Box), LC-37 (Combination), LS-75 (1/2" Socket) Display Boards.

**A FEW DISPLAY ARRANGEMENTS**

Select and combine different arrangements to meet various requirements.

**LWD-283 FOR COMPLETE SERVICE**

Wrenches scientifically selected to service customer needs of any store or neighborhood—a completely balanced wrench department. Consists of Nos. LE-52 (Open End-Engineers'), LB-40 (45° Box), LB-42 (15° Box), LC-37 (Combination), LC-48 (3/8" Socket), LS-75 (1/2" Socket) Display Boards.

**"MADE EXCLUSIVELY FOR THE HARDWARE TRADE"**

Each Set in the new 3/8" Square Drive Billings LIFE-TIME Socket line contains Billings quality Sockets and Parts in various assortments to meet the needs created by users of this popular priced line of Sockets.

The heavy gauge metal boxes are enameled in the distinctive Billings LIFE-TIME royal blue. Separate partitions for Sockets and Parts plus space for future additions give an orderly appearance to the sets. Latches and hinges are strong and practical.

Sockets and Parts are made from selected ALLOY Steel, heat treated to Billings rigid specifications to develop the utmost in strength. The openings are accurately sized. All Sockets have a rust resistant chrome plated finish.

The 3/8" Parts are selected to be the correct counterparts to the various sizes and types of Sockets in each Set and they are interchangeable. Each has the "lock-on" feature.

**"MADE EXCLUSIVELY FOR THE HARDWARE TRADE"**

Each Set in the new 3/8" Square Drive Billings LIFE-TIME Socket line contains Billings quality Sockets and Parts in various assortments to meet the needs created by users of this popular priced line of Sockets.

The heavy gauge metal boxes are enameled in the distinctive Billings LIFE-TIME royal blue. Separate partitions for Sockets and Parts plus space for future additions give an orderly appearance to the sets. Latches and hinges are strong and practical.

Sockets and Parts are made from selected ALLOY Steel, heat treated to Billings rigid specifications to develop the utmost in strength. The openings are accurately sized. All Sockets have a rust resistant chrome plated finish.

The 3/8" Parts are selected to be the correct counterparts to the various sizes and types of Sockets in each Set and they are interchangeable. Each has the "lock-on" feature.
